Guideline for Full Paper Preparation

- ❖ The papers should be divided into the following sections and appear in the order: (1) Abstract, not exceeding 250 words, (2) Introduction, (3) Materials and Methods, (4) Results, (5) Discussion, (6) Acknowledgments, (7) References, (8) Figure legends, (9) Tables, (10) Figures.
- ❖ Please try to limit the number of total words to not more than 5000.
- ❖ The Results and Discussion sections may be combined and may contain subheadings. The Materials and Methods section should be sufficiently detailed to enable the experiments to be reproduced.
- ❖ All pages must be numbered consecutively from the title page, and include the acknowledgments, references and figure legends, which should be submitted on separate sheets following the main text. The preferred position of tables and figures in the text should be indicated in the left-hand margin.
- ❖ References should be cited in the text by author and date, e.g. Lie & Hire (1990). More than two authors should be referred by *et al.* e.g. *Lie et al (1990)* Listings of references in the text should be chronological. At the end of the paper, references should be listed alphabetically according to the first named author. The full titles of papers, chapters and books should be given, with the first and last page numbers. For example:
Chapman D.W. (1971) Production. In: *Methods of the Assessment of Fish Production in Freshwater* (ed. by W.S. Ricker), pp. 199-214. Blackwell Scientific Publications Ltd, Oxford.
Alam, S.D., Hossain M.M and Rahman M.B.Q (1986) A preliminary study on growth of *Crassostrea gigas* larvae and spat in relation to dietary protein. *Aquaculture* 56, 123-128.
